YOUR DEDICATED VOLUNTEER FIREFIGHTERS

Upper Milford Township is very proud to highlight both fire departments within this newsletter. The Township has two volunteer fire companies, Western District Fire Company and Citizen's Fire Company. These brave group of volunteers are proud to help serve and protect this great community, 24 hours a day, 365 days a year. Combined, both fire companies responded to 286 calls within the Township in 2015.

These men and women have tremendous passion for providing service and protection to the residents of Upper Milford Township. Many of them have families of their own, along with full time jobs, and other various commitments which they leave behind to answer the call of duty.

Thank you!

In this day and age where so many volunteer entities are closing their doors or becoming a paid entity it is a true testament to our proud volunteers for continuing the legacy which many have done before them. Both fire companies also have a ladies auxiliary, which also volunteer their time fundraising and aiding in the upkeep of the fire company.

Both fire companies rely on local, State, and Federal funding, as well as numerous fundraisers to fund their annual operating costs. However, with operational budgets rising and available funding often limited it is up to us as a community to aid in funding our fire companies. Donations are always welcome. Also, the fire companies are always looking for volunteers. Anyone interested in volunteering for their local fire company can call the fire company directly, visit their website, or "Like" them on Facebook. We can be very proud of all of our past, present, and future volunteers. Thank you for your service.

UPPER MILFORD HISTORICAL SOCIETY 2016 CALENDAR OF EVENTS

Members and friends of the Upper Milford Historical Society can look forward to a line up of interesting programs in 2016. There are varied topics of historical interest featuring presentations by our own members as well as programs by known authorities that promote the society's mission – "to preserve, research, and educate about the culture and traditions of the Township."

On March 31 David Venditta of the Morning Call and author of War Stories in *Their Own Words* will share some of the interviews and stories he has collected. Veterans and those from Upper Milford with military experiences to relate are encouraged to attend and add to the discussion.

For April 28 barn historian and preservationist, Jeffrey Marshall, will talk about barn preservation and land conservancy. With well over 120 barns photographed by the Historical Society in our predominately rural Township, we know this topic is very appropriate for residents of Upper Milford.

May 26 brings our own Township Manager Dan DeLong in a different roll. Dan has been a participant since 2009 in guiding school students around the wondrous sights and outdoor experiences in Alaska. Don't miss his photo journey of these adventures.

Member Frank Willis is a talented and award winning powder horn and bag artisan who has researched a ton of information about early life on the frontier. He also reenacts that rugged frontier lifestyle periodically. On June 30 Frank will talk about the historical aspects of and techniques employed by the early craftsmen.

With long daylight hours and hot weather, our annual outdoor picnic event is set for July 28 at Jasper Park. Everyone contributes a covered dish. Therefore, we all over indulge from all the picnic goodies. Then Bob Thomas and John Fegley help us recover by reminding us of the huge historical significance of the Lenape people as represented by the jasper pits in the park. The more adventurous members may even walk to visit the pits.

On August 25 Simonee deFuccio-Marhefka will give us a look at the life and times of *Uncle Jerry Roth: Father of the Great Allentown Fair* - just in time for the annual fair to take place! Simonee authored this historical book that includes her family connections to the fair's founder.

In the fall when the essence of Lenape roots in Upper Milford surrounds us, on September 29 we are excited and privileged to have Shelly DePaul, who serves as Chief on the Council of the Lenape Nation, give a very personal accounting of Lenape history in Pennsylvania – not possible by reading a textbook. Don't miss Shelly's time with us!

We complete 2016 on October 27 with our customary Pennsylvania Dutch program. Who do you get to present a program about Pennsylvania Dutch culture? Of course Patrick Donmoyer, head of the Pennsylvania German Cultural Center in Kutztown! From his deep PA Dutch expertise, this year Patrick will talk about barn stars, which are not the same as hex signs. Another program not to miss!

You won't miss any of these programs if you set aside the last Thursday of the month at 7 p.m. in the Township Building for the Upper Milford Historical Society meeting.

Roselyn Parry, Secretary

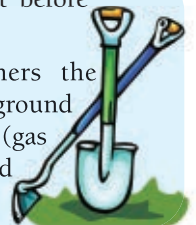

PLANNING ON DIGGING?

Call Pennsylvania One Call System, Inc. (POCS) three business days before you dig at 800-242-1776 or 8-1-1.

PA Act 287 as amended requires excavators as well as private landowners to call POCS three days prior to any type of digging occurring with powered equipment.

Mark your excavation area in white paint before calling with a dig notification.

By calling you allow the facility owners the opportunity to locate and mark their underground facility in advance of the planned excavation (gas and liquid pipelines will mark underground facilities using yellow stakes, flags or paint.)

Thank You To The Businesses!

This publication is made available through the generous advertising sponsorship of the businesses listed throughout our newsletter. We wish to encourage your patronage of these establishments; they play a substantial role in the economic vitality of our community.

We announce our closings on the phone message, so you can call 610-965-9284 after 8:00 AM to hear when the library will be closed, or view the monthly calendar at www.emmauspl.org/events.html. Take advantage of our Homework Center with extra laptops and school supplies, use the regular public computers, or we may have special “creative play” programs that appeal to toddlers through teens.

THE PUZZLE OF PUZZLES

What is it about puzzles that makes them so enthralling? To see for yourself, come try your hand at our jigsaw puzzle table. Generously crafted for us by Norm Seay at Q1 Home Improvements, plus an anonymous donation, the puzzle table was made at a height so people can stand or sit, and with a custom edge to prevent pieces from sliding off. Working on the puzzle is open to everyone, and every day we see a great mix of regulars and newbies working side-by-side. Finished puzzles are posted to facebook. We also have children’s jigsaw puzzles that can be checked out overnight.

Like the Mosaic Mural on the side of the building? We have a 252-piece color puzzle featuring the tile Mural, available to buy at the Library for \$19.99.

EMMAUS BOROUGH / UPPER MILFORD JOINT ADVISORY COUNCIL WINS AWARD

“The formation of the Borough of Emmaus – Upper Milford Township Joint Environmental Advisory Council (EAC) was unique as it focused on the protection of the watershed within two communities. Both communities recognized that watersheds do not end at the boundary of the community but are part of the larger landscape of our environment. In order to properly protect the watershed within our communities it was recognized that a cooperative relationship between the adjoining communities was essential. The establishment of a joint EAC shows the commitment of both communities to address environmental issues on a watershed basis. Since its inception the Borough of Emmaus- Upper Milford Joint EAC has focused on education, understanding that each resident has the ability to make change through action armed with the right information.”

Dr. William Ahlert, Chairman

Macungie Ambulance Corps

Macungie Ambulance Corps celebrates 60 years of providing service to the community.

In 1955 several community members recognized the need for an ambulance service in Macungie and the surrounding area. In that first year, members created a schedule of what they called "sleeping" teams and responded to 50 calls for service in a 1948 Packard. In the decades that followed, countless individuals would volunteer their time to serve others as members of the Macungie Ambulance Corps.

As years and decades passed, the needs of our community grew. Teams of volunteers "sleeping" at the ambulance station evolved into nurses and other individuals trained in first aid and CPR responding to calls for assistance in ambulances stocked with life-saving equipment.

As the community has grown; the ambulance corps has grown to match the need. Today the Macungie Ambulance Corps responds to over 3,500 emergency calls annually with a mix of paid and volunteer staff. We operate four Advanced Life Support ambulances as well as several specialty vehicles.

In addition to responding to 911 calls, the Macungie Ambulance corps is well known as a regional leader in community outreach in education. We train over 1,000 community members every year in first aid, CPR, and AED use.

In an emergency, call 911. To learn more about our organization and how we can help before or during an emergency, feel free to visit our website at www.macamb.org or contact our Division of Community Outreach and Education at (610) 966-2601 ext. 115.

Septic System Care And Helpful Tips: Septic system Dos and Don'ts

- Do:** Learn the location of your septic system.
 - Do:** Have your septic system inspected annually.
 - Do:** Have your septic system pumped out by a licensed contractor in accordance to the chart below.
 - Do:** Keep your septic tank cover accessible.
 - Do:** Conserve water to avoid overloading the system.
 - Do:** Divert other sources of water, like roof drains and sump pumps from the septic system. Excessive water keeps the soil in the drain field from naturally cleansing the wastewater.
-
- Don't:** Drive or park over any part of the system.
 - Don't:** Plant anything over or near the drain field except grass. Root systems from trees and shrubs may clog and damage the drain lines.
 - Don't:** Dig in your drain field or build anything over it.
 - Don't:** Use septic tank additives. These products may be harmful to your system.
 - Don't:** Use your toilet as a trash can or poison your septic system and the groundwater by pouring harmful chemicals and cleansers down the drain.

Estimated septic tank pumping frequencies in years. These figures assume there is no garbage disposal unit in use. If one is in use, pumping frequency may need to be increased.

TIPS ON WASHING YOUR VEHICLE WITHOUT POLLUTING THE STREAMS

With the doldrums of winter in the rearview mirror we all get the itch to get out there and shine up our cruisers, hot rods, or any other piece of metal that goes vroom! Below is a list of helpful tips to protect the environment while shining up your horseless carriage:

1. If possible wash your vehicle at a commercial car washing facility, where wastewater is filtered prior to reaching a stream.
2. Use an ecofriendly car wash cleaning solution.
3. Avoid washing your vehicle in a driveway or in a street. Additionally, runoff from washing your vehicle in a grassy area benefits the lawn.
