

SEPTIC SYSTEM PERMIT CHECKLIST

1. Section I of Application for an on-lot sewage disposal system completed.
2. Signature of the property owner at the bottom of the permit, if you are not the property owner, attach proof that you are authorized to act on the property owner's behalf.
3. Soil test pits and percolation test completed and / or verified by Township Sewage Enforcement Officer.
4. Septic system design with a plot plan and specifics enough to provide the installer all of the information necessary to install the system without reference to other documents. A list of plot plan requirements can be found on the back of the application for an on-lot sewage disposal system permit. Other information for installation may be required as per Pennsylvania Code Title 25, Chapter 72 and 73.
5. On permits for new construction, silt fence or similar approved fencing to protect both the primary and secondary septic system locations from all construction traffic.
6. All fees for testing and permitting of the septic system must be paid prior to permit approval.
